

Build your own branded mobile app with mySalesforce.

Your brand is one of your most valuable assets, helping you create and retain loyal customers. Now you can easily extend your brand to your employees in their mobile experience – and build brand loyalty internally.

Use mySalesforce to custom-brand your employee mobile app.

Build engaging branded apps with your own app name, icon, and colors. It's easy to do on the Salesforce Platform, the world's leading low-code mobile development platform.

List on the App Store and Google Play in weeks, not months, with our step-by-step listing wizard.

Drive app adoption with a consistent brand experience across user interactions. Engage every employee in your organization – beyond sales and service teams.

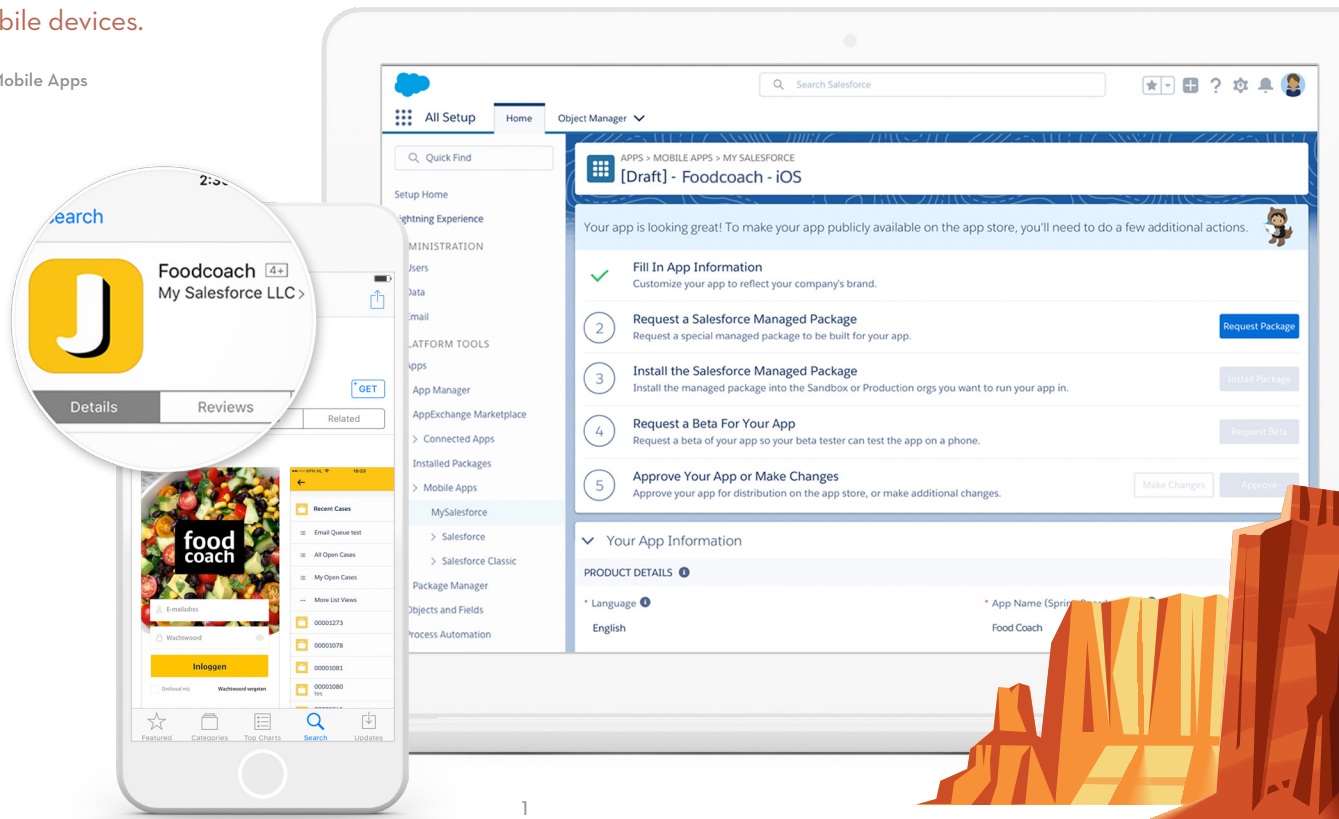

By 2022, 70% of software interactions in enterprises will occur on mobile devices.

“Gartner: Predicts 2017: Mobile Apps and Their Development”

“Empowering our supermarket employees with a branded mobile app on their phone to help serve customers has been a game changer.”

ROBERT JAN KOENS
Director of Customer Strategy
